

*Do you want to...*

**Earn** college credit in high school?

This class applies towards the Agribusiness Operations course required for all Southwest Tech agriculture programs.

**Own** or manage a farm?

**Join** a farming operation?

**Start** an agribusiness of your own?

# Beginning Farm Management

Southwest Tech and CESA #3 are partnering with your high school to provide this evening class to accommodate your schedule. **TO REGISTER**, contact your guidance counselor or youth apprenticeship coordinator. Then, visit [www.swtc.edu/fbpm](http://www.swtc.edu/fbpm), and select "Beginning Farm Management".

## *Course Topics*

This course includes basic business planning, risk management, recordkeeping systems, financial statements, lending opportunities, crop and livestock production systems, technology in agriculture, networking with other producers, and a field trip.

## *Youth Apprenticeship*

The Wisconsin Agriculture, Food and Natural Resources (AFNR) Youth Apprenticeship (YA) Program is designed to provide you with a working understanding of occupational and technical skills. This program provides the framework for educators and industry to work together to produce career ready, entry-level employees that will compete favorably in a global market.

## **Beginning Farm Management Meets one Wednesday per month from September to May, 7:00—9:00 p.m.**

Includes four hours of individual on-farm time and one extended field trip to industry/farm operations during the summer.

## *Two Locations!*
